

61

62 **Fig. S4.** Autophagy inhibitor Bafilomycin A1 intervention rescues mitophagy induced by RSV-
 63 NS1 overexpression. Beas-2B cells were pretreated with 10 μ M Bafilomycin A1 for 2 h.
 64 Immunofluorescence colocalization analysis of LC3 and TOMM20 to assess mitophagy. Scale bar
 65 = 25 μ m. n = 3. * P < 0.05 vs. oe-NC group; # P < 0.05 vs. oe-RSV-NS1 group.
